It refers to the recorded teachings and discussions of the rabbis throughout Jewish history. The Talmud addresses a wide range of issues such as politics, philosophy and law. Sukkot, Simchat Torah, Bikkurim, Pesach and Succot are long established traditions of Rosh Hashanah, Yom Kippur, Succot, Passover and Rosh Hashanah respectively. The greatest portion of the Talmud consists of the Mishnah, a record of the oral laws given by the Sages during the period of the Second Temple. The Hebrew word Talmud means "to teach, to explain" (Talmid means "teacher," while the word madda means "to explain,") and refers to the entire body of rabbinic literature, Jewish law, commentaries, and other material. The general title of the Talmud in Yiddish is Magen-Talmud. Why couldn't they just have a room for the Written Law? Um, so that you can go see it! And they call that the High Holidays, you know. Detailed information on the books and chapters of the Talmud can be found in the terms below: Mishnah: A collection of oral laws given by the Sages during the Second Temple period. The Mishnah is divided into Tosefta, which further divides into three books: Tosefta A, Tosefta B and Tosefta C. Gemara: The part of the Talmud that interprets and applies the Mishnah. The Gemara is divided into Tractate (a set of Mishnah and a Gemara in each tractate) and Mishnah tractate. Berakhot: An explanation of the Tosefta parts. Taanit: A collection of laws on festivals. Pesachim: Laws of the Passover Seder. Mo'adim: Laws of the daily life. Orach: A collection of laws on purity, Shabbat, holidays, and ethical values. Chagim: Laws of an individual's marriage. Yoma: A collection of laws on the Temple. Avot: Teachings of the Sages. M 570a42141b
