iPhone 8 / 8 Plus Defense Against Cydia Hackers : Pdf DOWNLOAD With the iPhone 8 and iPhone 8 Plus, Apple has considered letting third-party apps access the fingerprint scanner, so that developers can use the biometric technology to confirm whether or not someone is authorized to use their phone, and to make other kinds of phone-based transactions. This is something that Apple is not currently planning to do, but it's also been said that the company might be willing to consider it as its security defenses are beefed up. This comes as the company continues to beef up its security defenses in the face of an increasing threat, as password over-pasting and malware are becoming more popular methods of hacking into iPhones and...
