This means that the game uses an Aspect Ratio of 1:1,720, to match a 2K/HD display.25.4.10 I am sharing this one of my old photos which just makes me smile. My son likes to create his own work of art out of stuff around home. He bought this paint set in the 90's, it's in various colors and it turned out to be the very last thing I gave him for his birthday! I

am pretty proud of it. Just wanted to share my little story ;) On Wednesdays, I have a new challenge in my little party here on my blog.

You can see the details here. Below is the one I created for the challenge. I don't always enter every time, but I do enter when I can. So

have fun, I would love to see what you create! Thanks for the blog award. I just love getting those, and I have so many and when I go to enter, I leave the blog and come back and enter on the other one, just

so I can come back and see all the awards and great blogs I have been tagged. Big hug! Like Us On FB! META I am a wife, mom, and creator

who loves everything vintage, pops of color, nature and all kinds of crafts. I am a scrapbooker who scrapbooks what I love. I love all kinds of

paper crafts, especially making vintage style cards, mini albums and 3D projects. I have been doing crafts for a long time and love knowing that

whatever I make can be used and cherished for a long time! I love hanging out with my friends, crafting, going to the gym, my nieces and

nephews, and spending time with my hubby. I am a military wife and I know first hand how hard it can be to adjust when you are not at home,

so we are trying to make it work!Q: XMLHttpRequest not showing up as a error on IE I have found a few examples of people getting this error

from IE in the past, and they are related to CORS issues, but my server is using default.htaccess rules to suppress cors. In any case, even

though IE doesn't get a 500 error and shows the XML e79caf774b
