Gunman Clive 2 retains the same classic gameplay formula, but dials the action up a notch further with improved and more colorful graphics, more dynamic levels and richer, more diverse environments, bigger bosses and tons of new enemies. Based on the original Cartoon Network Game Boy game from 1997. The Blob King - The Blob Part 2: Return of the Giant Blobs! The Blob King may have been defeated, but it's back in more bloodied, brutal-looking form! It's the Blob sequel everyone's been waiting for! A giant blob is back, and this time he's hunting for humans. In The Blob King 2: Return of the Giant Blobs! The giant blob monster is back in action, and he's on a mission to eat as many humans as possible! The humans won't stand a chance. It's up to you to stop him. Control Your Robot-Sports Car from the Hilarious Gameplay of 1995: Humanoid blob monsters are coming after you in hordes this time. If you are going to survive this invasion, you will have to meet the enemy head on! There is no other way. The key to survival is to use your car. You can jump from a high place, smash the enemy car, and even use your machine guns to shoot a giant blob. The Game Breaks Out with a New Secondary Enemy: The Blob King 2 is enhanced to allow for more depth, variety, and visual spectacle. This time, you have some serious secondary enemies to deal with, and they are every bit as horrific as the blob monsters were. Each alien is armed with a gun, and will try to shoot you in the face. There is no other way. Play the Game like You've Never Played Before: There is no two ways about it. This game rocks. Gunman Clive 2 features new and more dynamic gameplay, and new enemy types. In addition, it brings Gunman Clive back to a day in the life of a young man. Which is great, because his name is Clive. The cinematic levels and unique environments provide an excellent variety of gameplay and a wide range of challenge. The new enemies are scary, deadly, and difficult. The story and characters from Gunman Clive 2 shine as the Game's trademark comic style just makes it better. You Can Become Giant Blob King: As you defeat hordes of enemies

This price is guaranteed directly from the developer for the first 24 hours, then it'll be removed from this page.Q: Templates for object pointer in C++ Suppose I am given a class, and one of its member is a pointer to a class with multiple template parameters (e.g. a vector, or a list of objects). How would I go about creating a template in order to allow me to create the objects, without creating any copies of the object? Here is an example of the idea: class ConstructClass { public: template class T> ConstructClass(c9d1549cdd

Summer Breeze Collection Costumes Summer Breeze - NiCO:Summer Breeze Costumes Introduction Character Clothes Character Appearance and Change Summer Breeze Price Epic Outfit Costumes Armor Accessories Winter and Spring Equivalent Costumes Summer Breeze Costumes Helena: Helena is all dressed in the same summer outfit. It includes a new bikini top and a new top hat for her for her in-game look. One of her clothes differs from the rest because it can't be seen when wearing her Summer Breeze outfit. Summer Breeze outfit is for adult version of Helena. It's not suitable for children or teenagers. One of the top half of a skirt and the skirt itself is made of leather. One of the top half of a skirt and the skirt itself is made of leather. It also includes a belt and buckle. A new shoe is added to the Summer Breeze outfit. Helena's Summer Breeze outfit looks different depending on the character's current appearance. Each outfit is shared between the two characters. If only one of them is being used in a particular scene, they can appear together in the same scene, but only with the second character taking on the 'Summer Breeze' appearance. Helena: Summer Breeze Character Details Equipment Name: Helena (Summer Breeze) Equipment Details: A belt that has a buckle on it. A shoe that is tied around the ankle with a leather strap. Summer Breeze: Summer Breeze Character Details Equipment Name: Summer Breeze Equipment Details: A white top hat with a crown on it. Summer Breeze Costume Description A new Summer Breeze outfit is added for your NiCO character. New equipment is added to the Summer Breeze outfit. Summer Breeze gives you a new style for your character. Summer Breeze: Summer Breeze Character Details Equipment Name: Summer Breeze Equipment Details: A white top hat with a crown on it. Summer Breeze Costume Description The outfit includes a new outfit for the NiCO character. New equipment is added to the Summer Breeze outfit. Summer Breeze: Summer Breeze

What's new in Enamored Risks:

.io has released a new version of its project manager named "BlankSlate." As the company explains, "the update features an integration with a Facebook application that automatically creates topics, events, and other types of content." New topics, for instance, can be automatically created from Facebook Pages, "and automatically generated event announcements can be broadcasted from Facebook Pages to followers." The Blankspace CMS was started last year by former CEO Steve Parker and John Chaves and is currently being developed by a team of 19 developers. Today, the company claims to have a database of more than 1.2 million events from around the world and a large follower base including more than 50,000 Twitterers. With today's release of a long awaited beta, the popularity of the OS X update to the iPod nano, is re-inventing the wheel while ignoring the possible implications to the APIs Open Space promises to provide. While most Twitter clients can make use of the API, Open Space has made it clear that its focus is the mobile user not the desktop one. From a client perspective, only links and images can be published and "no third party clients are permitted." However, if a mobile application was to be written to allow a user to subscribe to a particular RSS feed, providing only a downloadable link would still be prohibited. Another problem with trying to create an OS X application to use Open Space is working with the Twitter client. There has not been support for authentication with Open Space since version 4.0. This is not the first time that Open Space has pulled back on its promises. While we were promising the release of Open Space 5.0 and promised that it would have subscription features, version 5.0 never came to be. Version 4.0 was then cited as being the last version of the framework. The code for version 5.0 was been finished and had been tested, but Apple wanted it to be reviewed. The developer deadline for the review was before the release of version 4.0 of the iPhone. The most popular question about the release of Open Space 5.0 has been what is it doing, or rather what is it not doing. It is still using Open Space for subscribing to Twitter feeds and posting to Twitter, but the changes themselves aren

Everyone likes finding new things, right? Well, being an investigative researcher and paranormal investigator does have its perks, especially if you're a magical, Australian teenager. Join Tara Bryck, Morgan Fischer, and the cast of Heart of the Woods in their first full-length, interactive visual novel! published:05 Nov 2016 views:237420 Please visit the link to donate to the Pedal Power charity. Please note that all donations get linked to the real receiver so that we can track our performance and continue to improve the event for everyone. You can donate any amount through PayPal: Found Footage 6: A Carnival of Souls We welcome all family members to share the journey along with us as we explore this haunted destination. We spend our time researching the haunts that are located there. Haunted and paranormal investigator, DuaneSwanson will lead you on a personal tour of the locations many paranormal occurrences have been reported to have happened from the 1800's to present. We'll also take a look at the evidence for and against whether or not the haunt truly exists, and see if we can take home a personal experience that will leave you feeling great about life and the universe. If you would like to get in touch with us, please email us at the following address. Visit our Site, and/or join us on our Facebook page, where we love to talk about the paranormal. published: 04 Jan 2014 It's been a long road. Just over three years since I announced the first popular podcast series in the history of the internet, Oninus Productions. And like many of you, the road has been a long, crazy one. During the first year I was cautiously hopeful about finding a stable audience for my work. Which is why I was so surprised
