## **What's new:**

**Racing: 2-Way Sprint Series** Have you tried the new 2-Way Sprint Series? This is our newest racing series designed to offer more diversity and excitement to our customers. While there are many other events going on throughout the year, the 2-Way Sprint Series is a standalone, 2-day event featuring two classes of cars. Many racers have been asking where to buy Pro or Amateur race passes to the 2-Way Sprint Series. I tried the 2-Way Sprint Series last year and was really impressed with it, so I am excited to try it again this year. For our racing customers, I have some tips on buying racing passes to the series and what is going on and who else is racing. Why did we start this new series? One, to add more offerings to our season, two, to do two races on one day. You will notice that the series is consistently selling out and most of all to keep the buck going up in venues across our state, so we can continue to enhance customer engagement and development of up and coming companies in the market. The last race of the day will be at ten pm, which is good because by that time the sun will be out and dark sets early in Ohio. Our tracks are lit, so you will be in the cone of action to see the finish. **Customize your 2-Way Sprint Experience** One of the things about an event like this is that we want you to feel like a VIP guest even after checking in when you are ready and setting up near your car. Here are a few things I do to add to that experience: I start the day prior with the customer service team going through all of our available passes for the event. I find if the customer service rep can educate the customer about the event and the passes, I can buy/sell passes based on the person's racing interest and personal favorite cars. I want each person to feel like they found a pass they like.

---

**Having such a close relationship with the folks who call customer service is helpful when the customer service rep wants to sell me the pass. It helps me with my selling if they already have a relationship with the customer, so don't be surprised if you hear a customer service rep say, "Oh, I am going to call you back. We can put together a deal based on our relationship with you." You will hear me say, "Go to the source." No one knows the pass**
