"I had had the opportunity to play Tarnished a bit, but given the choice between playing this and PvP or another lesser MMO, I'd probably go with this. I enjoyed and enjoyed massively, and I played with the intention to grind. I could barely enjoy things at all though, thanks to the bullshit lag that you deal with because it's your people's shit servers." "It is in the games, the lore, the questing, and the monsters themselves that the experience is packed with charm. Make no mistake—if you don't go to the source, you'll be let down. I have trouble imagining any other MMO with as much background as the Lands Between." "While Tarnished is by no means a perfect game, it is a fully-formed, distinct game that can be taken alone and played through to completion. Add an enhanced PvP experience to that, then you've got one hell of a thing going." POKEMON GO game: "This is a fairly common criticism of Poketo Go, and even though it's a little off topic, it still wouldn't be a fair review because it's a platform title. Anyway, I'd recommend Poketo Go." "This game is solid, it's got a great art style, it has lots of content, it plays great, and is priced well. The only issue is the gyms and fights are a little bit repetitive as you fight the same weak and hard Pokemon over and over again." HELLBENT game: "I have played a number of Hellbent releases, including Co-Op, PvP, Game Maker, and the Campaign, but as far as an RPG, this is my favorite. Though I usually don't go for RPGs, the people who do it right, really do it right, and Hellbent is exactly that." "This game has some of the best graphics and story of any RPG out there. The story is gripping and it's easy to really connect to it. The characters are intriguing, and they provide a lot of the humor. Hellbent is the best RPG game out there, and I recommend it to anybody who wants something good." WEATHEX game: "Some developers are known for making tons of content and releasing it often, and bff6bb2d33
