FIFA 20 was the first year that the game was released with the ability to run on platforms that previously were not available with previous versions of the game, however this ability was subject to cheaters, who were able to exploit it to force the game to adapt to their specific settings. Anti-cheating measures included game-ending bans and team updates, but there were still a lot of cheaters, and many server owners went as far as to ban all their clients from playing on their server. Players who were caught cheating in FIFA 20 were banned and their teams were updated. During the middle of the year, EA and Electronic Arts signed a new deal for the FIFA game and the sports game, which will make the franchise free-to-play for the first time, and will release an update to the game, introducing the Ultimate Team. A demo was released, which allows players to test the new modes of gameplay and check out the new cards and packs. For the first time in a FIFA game, the designers decided to put the players into the game with the introduction of The Journey: World Stars into the game. It was called The Journey: World Stars because it was to be a world tour of the best players in the world. It started at September, with the 11 best players in the world playing in a pre-tournament match, known as The Journey: World Stars Pre Tournament Invitational. For the first time, FIFA 20 introduced online gameplay to the game. It will not be the default online gameplay of the game. The online gameplay will be in a new mode called Online Seasons. FIFA 20 was released worldwide for Microsoft Windows, Xbox One, PlayStation 4 and Nintendo Switch on the 30th of September, 2017. It was released as a complete version. Contents Gameplay The central idea is to create realism, improve the game in many ways: the game is continuously adapted to the new players. There will be no new teams when FIFA 20 comes out. Instead, the game will be undergoing a sort of "tournament" with the new teams, only the best player of the best countries will be kept. Hence, the best players will be available to all those who play. One of the new modes in FIFA

20 is not available in FIFA 19, it is called Comeback. The player who did not make the comeback will come back to the game as if he came with his dream team. FIFA 20 adds new ball physics that

What's new in Fifa 22:

- **Live out your dreams as a manager or a player in FUT. Create the newest club in FUT and dream of bringing them glory. Design your kit, style your stadium, and choose whether to compete with the elite or rise up from the lower divisions as you manage your club to glory. Or test your skills as a player in the more immersive player career mode.**
- **FIFA 21's captainship system is now included with FUT: captains can pass and receive the ball, can shoot with a free kick, and use long-range shots from the penalty spot as a penalty. They can also lead attacking runs that lead to goals.**
- **Improved UCL simulation gives every game more of a tactical edge as players can receive the ball in midfield, rather than just defending it from the opposition. The net's dynamics also help simulate the effects of striking large open nets.**
- **A new "Break-in" feature will make it easier to score from long shots by generating a goal meter.**
- **Improved collision detection allows players to protect their heads when running with the ball. Players can now use the run slide, a technique used in much of the world's greatest football to quickly get off the defensive and into attack.**
- **A new Agent Handling System (A.H.S.) enables the ball to be played along the ground, soaring through the air, or bouncing off a player's head or elbow as pre-defined movements depending on whether a player is controlled with the ball or not.**
- **Player Intelligence (P.I.) keeps watch for any "offside" rule violations, then adjusts its responses accordingly.**

-
- **Improved animation for more realistic player faces and expressions.**
 - **New pre-match spin kicks used in pre-season tests, including ones taken by the world champions.**
 - **Goalkeepers can now both stand and roll across the field to tackle the ball.**
 - **Penalty kicks are more accurate. Players automatically carry the ball a certain distance to their feet**
 - **New “Discoveries” have been added for season mode, as well as the all-new free agent and club transfer markets.**
 - **Player cards and Transfer Market cards from recent transfer windows, with memorabilia and historical**
