When AutoCAD 2007, was released, the background was changed to a more vibrant red color. Mac OS X AutoCAD 2004 for MacOS X is available on the Mac App Store. There are also videos available for demonstration of the software. AutoCAD LT for Mac includes other interfaces as well as AutoCAD's Windows interface, such as: DesignCenter (formerly Revit DesignCenter) is a new interface for modeling and creating drawings. New Protractor (formerly Relativity) is a new interface for design collaboration. AutoCAD LT 4 includes a new user interface, similar to that used in AutoCAD LT 3, called the "Architectural Desktop".
