Jun 18, 2014 Rehabilitation Counselors are in demand because of the health and wellbeing issues that confront millions of Americans as our nation ages. The American Occupational Therapy Association reports that the U.S. Rehabilitation Counselor workforce has increased by 52 percent in the last decade, and is projected to increase by 62 percent by 2020. To meet this need for qualified rehabilitation counselors, a new accreditation program called the National Accreditation Board for Allied Health Education Programs (NABAP), is being developed. This accreditation program seeks to differentiate practitioners in rehabilitation settings. This is done by providing specialized education and training for individuals to become credentialed as rehabilitation counselors. The NABAP program will include a four-hour online course, a three-hour seminar, a 30-hour practicum

and an exam. Another fact to consider is that several states have established their own credentialing standards for rehabilitation counselors. I also cant think of a situation where I would accidentally press re-buy each time, so I guess that would be a waste of time in a game with premium ammo and what not - you might actually have to use it to avoid an accident.

Anyway, that's just me.
