Read our Privacy Policy.This is a simple, real world example of a video captured with the P2 Cam on my GX7. Shot from the back during the WILD at Work Outdoor Adventure and Film Festival and one of several cameras I used to shoot this event. This was my first time using live view and I was quite impressed with how fast I was able to get this video shot. As far as I know, there is no other company offering live view with the gimbal that is also stabilizing the camera. Normally when you go to live view you lose stabilization and the aperture control. If you do use the GX7 for video it's a great option to have the stabilization and aperture control. I wish Canon could make this standard in all their cameras. It's been a while since I've written an article but I figured I would mention a few things. The biggest change is that I've been shooting a lot more than I have in the past. I've never been a person who
