Torqued Up Legends is a fast-paced, arcade racing game. With over 20 tracks and over 20 cars, TUL is HUGE. Ride the rails or play the streets; this is one track you won't want to miss. To play TUL, you'll want to pick your car and car class. Car classes range from Stock, to Street King, to Speed Demon. You can also unlock special classes. You'll also want to pick your car class, because the power of the engines is not the same across the board. Stock cars tend to have the slowest engines and Street Kings have the most HP, but what's under the hood determines the power of the car, not the vehicle's weight. So make sure to pick the right class for the right track. You'll have fun using nitro boosts to control the race. Nitro boosts are short bursts of speed that last for a limited amount of time. They're best used to pass other cars or when the game slows down. You'll need to use them smartly or else you'll risk losing control of the race. Be on your toes, because TUL is an intense, arcade racing experience. It's not for the faint of heart. Key Features: More than 20 Tracks More than 20 Cars Nitro Boosting Unrealistic vehicle physics Very Efficient Nitro Boosting System Weapons System In-depth Achievements System Global Leaderboards Difficulty levels You can also choose to get a 3D Driver using the Ashes 3D Launcher after installation.
