I like how you added the power transport problem into a regular problem solving environment - much easier to visualize and remember than a circuit diagram. There are five more equations in there, two of which are the same as the previous equations. If you are having trouble with this part, the author's Mathcad.Battle of Vellici The Battle of Vellici (September 1346) was a battle that resulted in the victory of the Republic of Genoa against the forces of Charles of Durazzo. Charles captured and destroyed Genoa on the Gulf of Genoa in September 1346. The defeat at Vellici, the seaport of Genoa, was one of the most serious reverses in the Genoese history. The Republic was able to recover and begin to rebuild Genoa again in less than five years. The forces of Charles of Durazzo began to ravage the city of Genoa at the end of 1346. By the end of September 1347, it was clear that Genoa was doomed. Refugees of the city of Genoa had begun to take refuge in the city of Savona, and the city was completely abandoned in 1348.
