Free Download Bink-Set-Soundtrack 8 Download Free..Q: Sql to Oracle: Invalid data conversion with Oracle instant client 18 We have a simple procedure with Oracle 11.2.0.2 (all 32bit) that receives some data from a Web Service and returns to Oracle 11.2.0.2 the result of the received data. The webservice receives as parameter a date, and returns the latest year of that date, so my procedure must receive one date and return as parameter a second date. I'm using a DATE parameter because the next step, a conversion to a NUMBER, is performed and DATE is more accurate. The procedure receives correctly both the parameters. I have checked the syntax as it was the same with Oracle 11.2.0.1 and the problem began on 18. When I try to execute the procedure, I receive an error: c6a93da74d
